

**ONLINE**

### WHY PARTICIPATE ?

This event is an opportunity to meet the engineers of tomorrow. You will have the chance to engage with motivated students from a prestigious French civil engineering technical university.

Join us and :

- Strengthen your company's image as an international player fostering a multicultural work environment.
- Identify and recruit top talent from BUILDERS Ecole d'Ingénieurs without the logistical and financial constraints of an in-person event.

### POSSIBLE INTERNSHIPS

Between June and September

#### Construction Management Internship

↳ Objectives: The first period of supervision within a company. The intern gradually takes on the responsibilities of a construction manager.

#### Technical Design Office Internship

↳ Objectives : Performing and verifying the structural calculations for construction elements.

#### Research & Development Internship

↳ Objectives: Conducting an investigative project related to new materials or new construction technologies.

The 4th edition of the International Forum will take place online, free of charge. It will focus on a job-dating format, providing an opportunity for exchanges with our students. This special moment will also allow you to discuss their future, talk about their career plans, and more generally, engage with a potential future collaborator.

We will handle all the online logistics and ensure the event accommodates your time zone.

*All you need to do is turn on your webcam and find the ideal candidate for your company!*

#### Please be aware :

- The online interviews will be conducted in French or English, and the schedule will be arranged based on the availability of the companies.
- We are committed to providing you with all the necessary guidance for the optimal use of MS Teams, the software used to interact with our students.

**16**

weeks required  
abroad for obtaining  
the engineering degree

**150**
